### **Boil Order Lifted for Fortuna, Columbus and Noonan; Remains in Effect for Crosby**

BISMARCK, N.D. – Water test results received today indicate that the tap water in Fortuna, Columbus and Noonan is safe for human consumption and the boil order has been lifted for those communities. For now, Crosby remains on a boil order until test results indicate that the water is safe.

Additional testing has been done in Crosby and results are expected tomorrow. Officials will inform the residents of Crosby when tests indicate the water is safe and the boil order can be lifted. Until that time, Crosby residents must continue to use bottled or boiled water for human consumption.

More information is available at on social media with hashtag boilorder (#boilorder). Information is also available from local media and on the Divide County website at <http://www.dividecountynd.org>. Residents who have questions about the status of water quality may contact WAWSA during business hours at 701.774.6605 or can visit the WAWSA website at [www.wawsp.com](http://www.wawsp.com). Those who have questions about boiling water or water safety may contact the NDDoH at 701.328.5211.
